About Me

I am a FullStack developer with a strong educational background in Software Engineering. I have completed the FullStack developer course at Najot Ta'lim and obtained a certification. Additionally, I hold a Bachelor's degree in Software Engineering from TUIT, where I achieved an impressive GPA of 4.12 out of 5.

I have also acquired valuable skills through various certifications, including Coding Interview Preparations and Version Control from META. Furthermore, I have completed courses such as Learning Javascript, Advanced React, FrontEnd Developer Capstone, HTML CSS in Depth, and Principles of UI/UX.

With expertise in C++, JavaScript, Node.js, Express.js, MongoDB, PostgreSQL and more; I am well-equipped to handle complex projects. My proficiency extends to technologies like GraphQL and Apollo Server for efficient data management.

My language proficiency includes English (B2 level), Russian (B1 level), German (A1 level), and Uzbek (Native).

I am eager to apply my knowledge and skills as a FullStack developer to contribute effectively to your team.

Languages

English - B2 - Upper Intermediate

Russian - B1 - Intermediate

German - A1 - Basic

Uzbek - Native

Skills

C++	JavaScript
Search Engine Optimization (SEO)	Node.js
Express.js	Axios
Socket.IO	Mongoose
MongoDB	PostgreSQL
expressjs	pgAdmin
Multer	Algorithms
TypeScript	Unit Testing
GraphQL	Apollo Server
WebSocket	Git
CSS	HTML
React.js	Bootstrap
Sass	Responsive Web Design
